Topics for conference include but are not restricted to the following,

## Recent Trends in Computer Engg.

- Artificial Intelligence.
- Advanced Database Management System.
- Computer Networks and Security.
- Cloud Computing.
- Mobile Computing.
- Data Mining and Data Warehousing.
- Network Attacks and Digital Forensic Analysis.
- Software Engineering.
- System Programming.
- High Performance Computing.
- Multimedia System Design.
- Wireless and VOIP Networking Technology.
- Network System Administration

Topics for conference include but are not restricted to the following,

## Recent Trends in Electronics Engg.

- Advanced Power Systems.
- Feedback Control Design
- Biomedical Circuits.
- VLSI System
- Embedded Systems.
- Image Processing
- Insulation System Design
- Nano Electronics Devices
- Low Power Design.
- Non-linear Circuits and Systems.
- Photonic and Opto-Electronic Circuits.
- RF and Wireless Circuits.

## About VJTI

Veermata Jijabai Technological Institute (VJTI) was established in 1887. VJTI started with only two departments, namely the Sir J. J. School of Mechanical Engineering and the Ripon Textile School, for the two branches of industry in which Bombay was vitally interested at the time. The first step in the expansion of the Institute was taken in 1903. The department of Electrical Engineering was established in 1903. The department conducts a variety of courses at the diploma, bachelors and masters level in electrical and electronics engineering. Subsequently, Technical & Applied Chemistry Department was established in 1906 and Department of Sanitary Engineering in 1914. On 27th June 1913, the institute was recognized as the Central Technological Institute by the Government of Bombay with G. R. NO. 1850. In the course of development, the bachelor degree courses in Textile, Mechanical Engineering and Electrical Engineering were started in 1946, 1947 and 1949 respectively. In 1998, the Institute was renamed from its old name Victoria Jubilee Technical Institute to its present name Veermata Jijabai Technological Institute.

VJTI has a sixteen acre campus at a prime location at Matunga. The dome of the building remains the most distinctive feature of the campus. Hostel facilities exist for about 550 students and span four blocks. The hostel mess, Gymkhana and Saraswati Vachanalaya are managed by student committees. The institute is reputed for excellent training in courses in Engineering and Technology at Diploma, Degree, Post Graduate levels and Research. VJTI is pioneered with B. Tech. programmes in nine core streams of engineering, 17 M. Tech. programs, and Ph. D. programs in various engineering disciplines. The Institute is affiliated to the University of Mumbai. VJTI is one of the Institutes selected by the Central Government for TEQIP - I and TEQIP-II to improve the teaching learning process.

## About Dept of Computer Engg. & IT

The department of computer engineering and IT was established in 1985 to cater the need of trained man power in Information Technology. Courses run by the department are B. Tech. in Computer Engineering, B. Tech. in Information Technology, M. Tech. in Computer Engineering, M. Tech in Network Infrastructure Management Systems (NIMS) and M. Tech in Software Engineering. Also, eight students are pursuing their PhD degree from 2010.

The department is located in southern wing on the ground, first and second floor and is supported by well equipped Computer Center in Quadrangle. State of the art computing laboratories are equipped with the latest machines, software. Emphasis is laid on fundamentals of computer science and engineering supported by laboratory practicals. The department of Computer Engineering and IT has advanced labs in Networking, Multimedia Systems, Cluster Computing and Web Engineering, MIS, Advanced Databases, and Network Infrastructure Management Systems etc. Our students also run the ACE and CSI chapters for conducting various technical as well as non-technical activities.
